

FINEST PHYSICIANS

L to R: Jeffrey R. Thill, M.D., Jeffrey D. Brady, M.D., David J. Vaughan, Jr., M.D., Julio C. Gundian, M.D.

WINTER PARK UROLOGY ASSOCIATES, P.A.

Winter Park Urology Associates wishes to salute doctors David Vaughan, Julio Gundian, Jeffrey Thill and Jeffrey Brady, who were selected by their peers as “Top Doctors” in urology.

Impeccable credentials and performance of up-to-the-minute and intricate urological procedures are what set apart the surgeons at Winter Park Urology Associates, where compassionate care meets innovative medicine.

Winter Park Urology Associates, the largest group in Orlando, was the first practice in Central Florida to perform a robotic prostatectomy, an extracorporeal lithotripsy (a noninvasive procedure for breaking up a kidney stone), a laparoscopic nephrectomy (minimally invasive kidney removal) and a radioactive seed implant for prostate cancer.

Dr. Vaughan graduated from Harvard University and the University of Cincinnati Medical School, and completed a residency in urologic surgery at Loyola University. Dr. Vaughan practices all aspects of general urology with emphasis on prostate and bladder diseases, kidney stones and female incontinence.

Dr. Gundian completed a residency in urologic surgery at the Mayo Clinic in Minnesota after graduating from the University of Miami and Tulane University Medical School. He specializes in prostate and bladder disease, vasectomy reversals, female incontinence and minimally invasive BPH treatment.

Dr. Thill graduated from University of Iowa Medical School, then completed his urologic training at the University of Florida. He specializes in robotic and minimally invasive surgery, female incontinence, kidney stones and prostate cancer. In 2008 he was named volunteer of the year for Shepherd’s Hope for his work in providing health care to uninsured patients.

Dr. Brady attended SUNY HSC at Syracuse Medical School and

completed his residency at the University of Miami and a reconstructive urology fellowship in Norfolk, Virginia. He is the urology chairperson at Florida Hospital and in 2008 he received Florida Hospital’s residency preceptor of the year award and the American Cancer Society’s HOPE award. He specializes in urethral stricture, male urinary incontinence and erectile dysfunction.

Winter Park Urology Associates, P.A.
